## AMENDMENTS TO THE CLAIMS

### Listing of Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A method comprising:

receiving a plurality of streaming content description data about a plurality of streaming content;

receiving a plurality of stored content description data about a plurality of stored content;

providing a program guide including at least some of the streaming content description data and at least some of the stored content description data, wherein the program guide includes a menu of the plurality of stored content; and

allowing a user to select a stored content from the plurality of stored content to be viewed at any time by selecting the stored content from the menu.

2. (Currently Amended) The method of claim 1 further comprising:

receiving a request to present a the selected stored content; and  
presenting the selected stored content.

3. (Original) The method of claim 1 further comprising:

**Appln. Serial No. 09/823,400**  
**Reply to non-final Office Action mailed on January 12, 2005**

receiving a request to provide a plurality of details about a selected stored content; and  
presenting the details about the selected stored content.

4. (Original) The method of claim 1 further comprising:

receiving a request to present a selected streaming content; and  
presenting the selected streaming content.

5. (Original) The method of claim 1 further comprising:

receiving a request to provide a plurality of details about a selected streaming content;  
and  
presenting the details about the selected streaming content.

6. (Original) The method of claim 2 wherein presenting comprises: decrypting the stored  
content.

7. (Original) The method of claim 2 wherein presenting comprises: decompressing the stored  
content.

8. (Original) The method of claim 4 wherein presenting comprises: decrypting the streaming  
content.

9. (Original) The method of claim 4 wherein presenting comprises: decompressing the

15. (Original) The system of claim 14 wherein the user selected content is one of the plurality of streaming content or one of the plurality of stored content.

16. (Original) The system of claim 12 wherein the coordinator comprises:

- a presentation component;
- a decryption component; and
- a decompression component.

17. (Original) The system of claim 12 wherein each content manager comprises:

- a presentation component;
- a decryption component; and
- a decompression component.

18. (Original) The system of claim 12 wherein the coordinator receives a new content manager.

19. (Original) The system of claim 12 wherein the coordinator receives a content manager update.

20. (Currently Amended) A computing device comprising a machine readable medium and a processor, the machine readable medium including instructions which when executed by the

processor cause the processor to perform operations comprising:

receiving a plurality of streaming content description data about a plurality of streaming content;

receiving a plurality of stored content description data about a plurality of stored content;

providing a program guide including at least some of the streaming content description data and at least some of the stored content description data, wherein the program guide includes a menu of the plurality of stored content; and

allowing a user to select a stored content from the plurality of stored content to be viewed at any time by selecting the stored content from the menu.

21. (Currently Amended) The computing device of claim 20 wherein the instructions cause the processor to perform further operations comprising:

receiving a request to present a the selected stored content; and  
presenting the selected stored content.

22. (Original) The computing device of claim 20 wherein the instructions cause the processor to perform further operations comprising:

receiving a request to provide a plurality of details about a selected stored content; and  
presenting the details about the selected stored content.

23. (Original) The computing device of claim 20 wherein the instructions cause the processor

to perform further operations comprising:

receiving a request to present a selected streaming content; and  
presenting the selected streaming content.

24. (Original) The computing device of claim 20 wherein the instructions cause the processor  
to perform further operations comprising:

receiving a request to provide a plurality of details about a selected streaming content;  
and  
presenting the details about the selected streaming content.
